

Character Trait Book Project

You will be creating a project on the protagonist in your book. Through your project, your classmates and teachers will learn what character traits your character possesses.

Include the following things in your project:

- book title, author and genre
- the character's name and a picture of the character or something that represents the character
- 8 adjectives that describe traits your character possesses
- evidence from the book that supports, or proves, each trait
- page numbers for each piece of evidence

Projects will be created using a Bubble Map. Projects will be shared and displayed.
